

Digital Wonders Photography

Digital Wonders provides photography services
for both business and home applications.

Photo Gallery – Enhance any room in your home or business with high quality photographs up to 24” X 36”. Choose from a wide variety of nature and modern subjects. The galleries are available for viewing at www.digitalwondersphotography.com

Photo Printing – Give us your digital picture file, and we will give you a professional quality print in sizes 5” X 7” to 24” X 36”. All prints are created on an Epson professional printer, using Epson Premium Luster (standard) or Premium Glossy paper and Epson Ultra Chrome K3 inks. Our prices and quality are second to none. An enlargement of a family picture or one of the kids will brighten the day of friends and relatives.

Digitizing Prints / Artwork – We will take your original photograph or artwork, and either scan it to create a digital file (originals up to about 30” square), or take a high resolution (12.4 MP) digital photo of your original with Nikon professional photographic equipment and a “natural sunlight” full spectrum lighting system. It can then be printed in any of the available sizes.

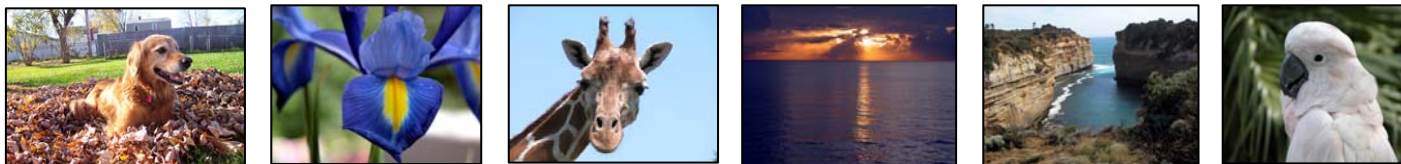

Digitizing Slides or Negatives – We can take your 35mm negatives or slides and digitize them. All scans are in 24 bit color, and either 4000, 2000, or 1200 DPI resolution. See the price sheet for file sizes and intended applications to help in picking the right resolution. We also do medium and large format negatives.

Photo Restoration – Allow us to improve the quality of your old faded, scratched, or torn photographs by scanning them into a digital file, and electronically enhance them. Results will depend on the condition of the original, but we think you will be pleasantly surprised.

Picture Matting and Framing – We offer custom cut mats in a variety of colors for all your framing needs. We can size it to match any print to any frame, up to 32” X 40”. We also offer a framing service with several standard frame types and sizes. See our web site for details.

On-location Photography Services – We offer our photography services for anniversaries, birthdays, senior pictures, etc at any location you choose. See our web site for more details.

We can also provide custom cut 3/16” white foam board for mounting and displaying your prints without the use of a frame (although frames are generally recommended). See pricing on the back of this sheet.
